STEWARDSHIP THOUGHT

In today's second reading, St. Paul provides a wonderful one-sentence summary of Christian stewardship: "Out of love, place yourselves at one another's service."

PRAY FOR THE REPOSED SOULS OF THE FAITHFUL DEPARTED: Maxine Rodriguez

**LAST SUNDAY'S OFFERING/
OFRENDAS DE LA SEMANA PASADA**

"Weekly church collection results will no longer be posted in the bulletin. Instead, summary results for the previous month will be reported to the parish the first Sunday of each month."

St. Anne is a "Fair Share Parish." As a Fair Share Parish we ask those who are able to give a weekly fair share offering of **\$48.00**. We also ask those who are able to prayerfully consider giving extra share for those who are unable to give. For your convenience, Electronic Funds Transfer (EFT) forms are available. This is an easy way to give your fair share each week. Forms are available in the foyer and office.

*Your generosity is your return to the Lord for his goodness to you.
Make an investment in the reign of God today!*

Catholic Action Principles

Be Proud

Take pride in who you are and in those values and beliefs for which you stand. Be proud of your Catholic faith. Be proud of your education, work and personal accomplishments. Be proud of your spouse, children and extended family. Be proud of your home and neighborhood. Be proud of your country. Be proud of your body, personal grooming and your manners. Be proud of the sports teams and cultural organizations that your support. Be proud of your government officials when they stand selflessly for the public good.

Don't be afraid of who you are, since you act with courage and compassion. Tell others, and bask in the feeling of being your best. Teach others, so they too may be proud, as we all try to be better Catholics

St. Anne Community Cookbook

Please share your favorite recipes for our St. Anne Community Bilingual Cook Book that the choir is sponsoring. The Choir would like to offer the opportunity for all our parishioners to share recipes from their culture. It will be fun!!

Please include your name, phone number, and email address on the recipe and either email them to office@stannechurchbyron.com, drop them in the collection plate or bring by the office. Many thanks for your help!

Habitat is building in your community!

We have launched a new foreclosure rehab program in neighborhoods affected by the foreclosure crisis by purchasing and rehabilitating existing foreclosed houses. These homes will provide

ownership housing opportunities for limited-income families. We plan to renovate eight homes in Bay Point over the next year as part of the federal Neighborhood Stabilization Program. We invite you to help rehab homes in your community! Visit our website, www.HabitatEB.org, for more information and to sign up to volunteer in your neighborhood! Contact us: Volunteer@HabitatEB.org or 510-251-6304 x375.

Nurses Notes

What is Asthma

Part 5 – Treatments for Asthma

Asthma medication plays a key role in gaining good control of your asthma. Asthma is a chronic (lifelong) disease that involves inflammation of the airways superimposed with recurrent episodes of decreased airflow, mucus production, and cough. Choosing the proper asthma medication is crucial in avoiding asthma attacks and living an active life.

There are two general types of asthma medication which can give you long-term control or quick relief of symptoms.

Anti-inflammatory drugs. This is the most important type of therapy for most people with asthma because these asthma medications prevent asthma attacks on an ongoing basis. Steroids, also called "corticosteroids," are an important type of anti-inflammatory medication for people suffering from asthma. These asthma medications reduce swelling and mucus production in the airways. As a result, airways are less sensitive and less likely to react to triggers. (Ex. Prednisone)

Bronchodilators. These asthma medications relieve the symptoms of asthma by relaxing the muscle bands that tighten around the airways. This action rapidly opens the airways, letting more air come in and out of the lungs. As a result, breathing improves. Bronchodilators also help clear mucus from the lungs. As the airways open, the mucus moves more freely and can be coughed out more easily. (Ex. Albuterol, Atrovent)

These asthma medications can be administered in different ways. Successful treatment should allow you to live an active and normal life. If your asthma symptoms are not in good control, you should contact your doctor for advice and look at a different asthma medication that may work best for you.

Next Week: Part 6 – Prevention

PLEASE- Remember to use the phone in the office or at the AV area in the hall and not a cell phone to call 911. Your cell phone will reach Sacramento CHP and precious time will be wasted.
